Dear parents

Greetings of the Day!

A good, clean environment is a right of every child. Keeping our children safe from any unhealthy exposure (such as the flu, common cold, strep throat, chickenpox, measles, mumps, or eye flu) is the duty of each one of us. So, let us join hands and work together to keep the health of our students SAFE.

To ensure that our children maintain good health, the following is suggested:

- If your child has a contagious illness (such as flu, cold, strep throat, chickenpox, measles, mumps or eye flu), please keep them home until they are completely recovered.
- When your child returns after being sick, please submit a leave application and a Medical/ Fitness Certificate at the school reception.
- To protect against mosquito bites, students may wear full-sleeves White Shirt and Beige Trousers (school uniform).
- Please remind your child to wash their hands regularly with soap and cover their mouth when coughing or sneezing.

Thank you for your constant support in keeping our school community safe and healthy.

Regards Auth.
